► Formation en Intra ou Inter-entreprises

Configuring and Troubleshooting Windows Server 2008 Terminal Services

2 jours
[14 heures]
MS6428EN

plan de cours disponible à l'adresse <http://www.adhara.fr/ms6428en.aspx>

OBJECTIF

This two-day instructor-led course provides students with the knowledge and skills to configure, manage, monitor, and troubleshoot a Terminal Services (TS) environment. The course focuses on configuring of TS core functionality, TS licensing, TS Gateway, and TS Web Access.

PUBLIC

This course is intended for an individual whose primary role is a Technology Specialist in an enterprise environment. Also, individuals who are assuming a new role requiring skills to manage connections served by a terminal server session over the intranet, extranet, and Internet would be interested in this course.

REMARQUES

Le support de cours est en anglais.
